SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

SOAR Technology Acquisition Corp. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on January 29, 2021. The Company was incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”).

The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of March 31, 2022, the Company had not commenced any operations. All activity for the period from January 29, 2021 (inception) through March 31, 2022 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The Registration Statement on Form S-1, as amended (File No. 333-253273) (the “Registration Statement”) for the Company’s Initial Public Offering was declared effective on September 15, 2021. On September 20, 2021, the Company consummated the Initial Public Offering of 23,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), which includes the full exercise by the underwriters of their over-allotment option in the amount of 3,000,000 Units at \$10.00 per Unit, generating gross proceeds of \$230,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 9,666,667 warrants (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to SOAR Technology Sponsor, LP (the “Sponsor”), generating gross proceeds of \$14,500,000, which is described in Note 4.

Transaction costs amounted to \$13,412,940, consisting of \$4,600,000 of underwriting fees, \$8,050,000 of deferred underwriting fees and \$762,940 of other offering costs.

Following the closing of the Initial Public Offering on September 20, 2021, an amount of \$236,900,000 (\$10.30 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”) which was invested in U.S. government securities,

within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund meeting the conditions of Rule 2a-7of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination or (ii) the distribution of the funds in the Trust Account to the Company’s shareholders, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward completing a Business Combination. The stock exchange listing rules require that the Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the assets held in the Trust Account (as defined below) (excluding the amount of deferred underwriting commissions and taxes payable on the income earned on the Trust Account). The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully complete a Business Combination.

The Company will provide the holders of the Public Shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares, equal to the aggregate amount then on deposit in the Trust Account, calculated as of two business days prior to the consummation of the Business Combination (initially anticipated to be \$10.30 per Public Share), including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to certain limitations as described in the Company’s prospectus relating to its Initial Public Offering filed with the SEC on September 17, 2021. The per-share amount to be distributed to the Public Shareholders who properly redeem their shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). There will be no redemption rights in connection with a Business Combination with respect to the Company’s warrants.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

If the Company seeks shareholder approval of the Business Combination, the Company will proceed with a Business Combination only if the Company receives an ordinary resolution or such other vote as required by law or stock exchange rule. If a shareholder vote is not required and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission (the “SEC”), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination. If the Company seeks shareholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Shareholder may elect to redeem their Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of the Business Combination and the Company does not conduct redemptions pursuant to the tender offer rules, a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares without the Company’s prior written consent.

Each initial shareholder has agreed (a) to waive its redemption rights with respect to any Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (i) to modify the substance or timing of the Company’s obligation to allow redemption in connection with the Company’s initial Business Combination or to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to shareholders’ rights or pre-initial business combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their Public Shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the Trust account and not previously released to pay taxes, divided by the number of then issued and outstanding Public Shares.

The Company will have until December 20, 2022 (or up to June 20, 2023, if applicable) from the closing of the Initial Public Offering to consummate a Business Combination (the “Combination Period”). However, if the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish the rights of the Public Shareholders as shareholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining Public Shareholders and its Board of Directors, liquidate and dissolve, subject in each case to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company’s warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

Each initial shareholder has agreed to waive its rights to liquidating distributions from the Trust Account with respect to the Founder Shares it will receive if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor or any of its respective affiliates acquire Public Shares, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 7) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period, and in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than \$10.30 per unit.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party (other than the Company’s independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below the lesser of (1) \$10.30 per Public Share and (2) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.30 per Public Share, due to reductions in the value of trust assets, in each case net of the interest that may be withdrawn to pay taxes. This liability will not apply to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and as to any claims under the Company’s indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). In the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company’s independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title,

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

Liquidity and Going Concern

As of March 31, 2022, the Company had \$1,454,538 in its operating bank account and working capital of \$1,483,663. In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsors or an affiliate of the Sponsors, or certain of the Company's officers and directors, may provide the Company with Working Capital Loans (as defined below) (see Note 5).

The Company may raise additional capital through loans or additional investments from the Sponsors or its stockholders, officers, directors or third parties. The Company's officers and directors and the Sponsors may but are not obligated to, loan the Company funds, from time to time, in whatever amount they deem reasonable in their sole discretion, to meet the Company's working capital needs. Based on the foregoing, the Company believes it will have sufficient working capital and borrowing capacity from the Sponsors or an affiliate of the Sponsors, or certain of the Company's officers and directors, to meet its needs through the consummation of a Business Combination.

In connection with the Company's assessment of going concern considerations in accordance with Financial Accounting Standard Board's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," the Company has until December 20, 2022 (or up to June 20, 2023, if applicable) to consummate a Business Combination. It is uncertain that the Company will be able to consummate a Business Combination by this time. If a Business Combination is not consummated by this date, there will be a mandatory liquidation and subsequent dissolution of the Company. Management has determined that the mandatory liquidation, should a Business Combination not occur, and potential subsequent dissolution raises substantial doubt about the Company's ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should the Company be required to liquidate after December 20, 2022 (or June 20, 2023, if applicable).

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 global pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual Report on Form 10-K as filed with the SEC on March 25, 2022. The interim results for the three months ended March 31, 2022 is not necessarily indicative of the results to be expected for the year ending December 31, 2022 or for any future periods.

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, as amended (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, as amended, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the condensed financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and

expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these condensed financial statements is the determination of the fair value of the warrant liabilities. Such estimates may be subject to change as more current information becomes available and accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of March 31, 2022 and December 31, 2021.

Investments Held in Trust Account

At March 31, 2022, the assets held in the Trust Account were held in cash and U.S. Treasury securities. The Company classifies its U.S. Treasury securities as held-to-maturity in accordance with FASB ASC Topic 320 "Investments—Debt and Equity Securities". Held-to-maturity securities are those securities which the Company has the ability and intent to hold until maturity. Held-to-maturity Treasury securities are recorded at amortized costs and adjusted for the amortization or accretion of premiums or discounts. As of March 31, 2022, the investment in the Company's Trust Account consisted of \$642 in cash and \$237,055,219 in U.S. Treasury securities. All of the U.S. Treasury securities will mature on May 19, 2022. The Company considers all investments with original maturities of more than three months but less than one year to be short-term investments. The carrying value approximates the fair value.

At December 31, 2021, substantially all of the assets held in the Trust Account were held in money market funds which are invested primarily in U.S. Treasury securities. All of the Company's investments held in the Trust Account are classified as trading securities. Trading securities are presented on the balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of investments held in Trust Account will be included in interest earned on marketable securities held in Trust Account in the accompanying condensed statements of operations. The estimated fair values of investments held in Trust Account are determined using available market information.

Class A Ordinary Shares Subject to Possible Redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Class A ordinary shares subject to mandatory redemption are classified as a liability instrument and are measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that feature redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, at March 31, 2022 and December 31, 2021, Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders' deficit section of the Company's balance sheets.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable ordinary shares to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable ordinary shares are affected by charges against additional paid in capital and accumulated deficit.

**SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)**

At March 31, 2022 and December 31, 2021, the Class A ordinary share reflected in the condensed balance sheet are reconciled in the following table:

Gross proceeds	\$ 230,000,000
Less:	
Proceeds allocated to Public Warrants	\$ (6,003,000)
Class A ordinary shares issuance costs	(13,064,007)
Plus:	
Accretion of carrying value to redemption value	\$ 25,970,956
Class A ordinary shares subject to possible redemption, December 31, 2021	\$ 236,903,949
Plus:	
Accretion of carrying value to redemption value	151,912
Class A ordinary shares subject to possible redemption, March 31, 2022	\$ 237,055,861

Warrant Liabilities

The Company accounts for the Public Warrants (as defined in Note 3) and the Private Placement Warrants (collectively, with the Public Warrants, the "Warrants") in accordance with the guidance contained in ASC 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the Warrants as liabilities at their fair value and adjusts the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in the statements of operations. The quoted market price is used as the fair value as of each relevant date for valuing the Public Warrants. The Private Placement Warrants are valued using a Black Scholes simulation.

Offering Costs

Offering costs consist of underwriting, legal, accounting and other expenses incurred through the Initial Public Offering that are directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with derivative warrant liabilities are expensed as incurred, presented as non-operating expenses in the statements of operations. Offering costs associated with the Public Shares were charged to shareholders' equity upon the completion of the Initial Public Offering. Offering costs amounted to \$13,412,940, of which \$13,039,746 were charged to shareholders' equity upon the completion of the Initial Public Offering and \$373,194 were expensed to the statements of operations.

Income Taxes

The Company accounts for income taxes under ASC 740, "Income Taxes" ("ASC 740"). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of March 31, 2022 and December 31, 2021, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

Net Income (Loss) per Ordinary Share

The Company complies with the accounting and disclosure requirements of ASC Topic 260, "Earnings Per Share". Net income (loss) per ordinary share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding for the period. The Company has two classes of shares, which are referred to as Class A ordinary shares and Class B ordinary shares. Income (losses) are shared pro rata between the two classes of shares. Net income (loss) per ordinary share is calculated by dividing the net income (loss) by the weighted average ordinary shares outstanding for the respective period. Accretion associated with the redeemable Class A ordinary shares is excluded from earnings per share as the redemption value approximates fair value.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

The calculation of diluted net income (loss) per share does not consider the effect of the warrants issued in connection with the (i) Initial Public Offering, and (ii) the private placement since the exercise of the warrants is contingent upon the occurrence of future events. The warrants are exercisable to purchase 17,333,334 Class A ordinary shares in the aggregate. As of March 31, 2022 and 2021, the Company did not have any dilutive securities or other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the income of the Company.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	Three Months Ended		For the Period from	
	March 31, 2022		January 29, 2021 (Inception)	
	Class A	Class B	Class A	Class B
<i>Basic and diluted net income (loss) per ordinary share</i>				
Numerator:				
Allocation of net income (loss), as adjusted	\$ 2,716,661	\$ 905,554	\$ —	\$ (5,022)
Denominator:				
Basic and diluted weighted average shares outstanding	23,000,000	7,666,667	—	6,666,667
Basic and diluted net income (loss) per ordinary share	\$ 0.12	\$ 0.12	\$ —	\$ (0.00)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times may exceed the Federal Depository Insurance Corporation coverage limit of \$250,000. The Company has not experienced losses on these accounts.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximates the carrying amounts represented in the accompanying condensed balance sheets, primarily due to their short-term nature.

Derivative Financial Instruments

The Company evaluates its financial instrument to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". Derivative instruments are initially recorded at fair value on the grant date and revalued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 15 months of the balance sheet date.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is for fiscal years beginning after December 15, 2021 and should be applied on a full or modified retrospective basis. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. The Company adopted ASU 2020-06 effective January 29, 2021. The adoption of ASU 2020-06 did not have a material impact on the Company's financial statements.

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's condensed financial statements.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

NOTE 3. PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 23,000,000 Units, which includes a full exercise by the underwriters of their overallotment option in the amount of 3,000,000 Units, at a purchase price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-third of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per whole share.

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 9,666,667 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant, for an aggregate purchase price of \$14,500,000, in a private placement. Each Private Placement Warrant is exercisable to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 8). A portion of the proceeds from the Private Placement Warrants were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

On February 5, 2021, the Sponsor paid \$25,000 to cover certain offering and formation costs of the Company in consideration of 7,187,500 Class B ordinary shares (the "Founder Shares"). On February 18, 2021, the Sponsor transferred 25,000 Founder Shares to each of Martha Tredgett and Greg Greeley, in each case for consideration of \$87, resulting in the Sponsor holding 7,137,500 Founder Shares. On August 31, 2021, the Company effected a split of the outstanding Class B ordinary shares, resulting in the Sponsor holding 7,613,335 Founder Shares and Martha Tredgett and Greg Greeley each holding 26,666 Founder Shares. All share and per-share amounts have been retroactively restated to reflect the share split. As a result of the underwriters' election to fully exercise their over-allotment option at the Initial Public Offering, a total of 1,000,000 Founder Shares are no longer subject to forfeiture.

Each initial shareholder has agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier of (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the closing price of the Class A ordinary shares equals or exceeds \$ 12.00 per share (as adjusted for share sub-divisions, share dividends, rights issuances, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Public Shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

Promissory Note — Related Party

On February 5, 2021, the Company issued an unsecured promissory note (the "Promissory Note") to the Sponsor, pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and payable on the earlier of December 31, 2021 and the completion of the Initial Public Offering. The Promissory Note was repaid in full on October 22, 2021. As of March 31, 2022 and December 31, 2021, there was \$0 outstanding under the Promissory Note.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$2,000,000 of such Working Capital Loans may be converted into warrants of the post-Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants. As of March 31, 2022 and December 31, 2021, the Company had no outstanding borrowings under the Working Capital Loans.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

The Company will have 15 months from the closing of the Initial Public Offering to complete a Business Combination (or up to 21 months if it extends the period of time to consummate a Business Combination in accordance with the terms described below). If the Company anticipates that it may not be able to consummate a Business Combination within 15 months, it may, but is not obligated to, extend the period of time to consummate a Business Combination two times by an additional three months each time (for a total of up to 21 months to complete a Business Combination); provided that the Sponsor (or its designees) must deposit into the trust account funds equal to an aggregate of \$2,300,000 or \$0.10 per Public Share, on or prior to the date of the applicable deadline for each of the available three month extensions, providing a total possible business combination period of 21 months at a total payment value of \$4,600,000, in exchange for a non-interest bearing, unsecured promissory note (an "Extension Loan"). Any such Extension Loan may be converted into Private Placement Warrants, at a price of \$1.50 per warrant at the option of the lender.

Administrative Services Agreement

The Company entered into an agreement, commencing on September 15, 2021 through the earlier of the Company's consummation of a Business Combination and its liquidation, to pay an affiliate of the Sponsor an amount not to exceed \$33,333 per month for office space and secretarial and administrative services. For the three months ended March 31, 2022, the Company incurred \$24,601 in fees related to these services, which are included in accrued expenses in the accompanying condensed balance sheet

as of March 31, 2022.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Registration and Shareholders Rights

Pursuant to a registration rights agreement entered into on September 15, 2021, the holders of the Founder Shares, Private Placement Warrants and any warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of the Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period. The registration rights agreement does not contain liquidating damages or other cash settlement provisions resulting from delays in registering the Company’s securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$8,050,000 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 7. SHAREHOLDERS’ EQUITY

Preference Shares—The Company is authorized to issue 5,000,000 preference shares with a par or nominal value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At March 31, 2022 and December 31, 2021, there were no preference shares issued or outstanding.

Class A Ordinary Shares— The Company is authorized to issue 500,000,000 Class A ordinary shares, with a par or nominal value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. At March 31, 2022 and December 31, 2021, there were no Class A ordinary shares issued and outstanding, excluding 23,000,000 Class A ordinary shares subject to possible redemption which are presented as temporary equity.

Class B Ordinary Shares— The Company is authorized to issue 53,333,345.5 Class B ordinary shares, with a par or nominal value of approximately \$0.00009 per share. Holders of the Class B ordinary shares are entitled to one vote for each share. At March 31, 2022 and December 31, 2021, there were 7,666,667 Class B ordinary shares issued and outstanding.

Only holders of the Class B ordinary shares will have the right to vote on the election of directors prior to the Business Combination. Holders of Class A ordinary shares and Class B ordinary shares will vote together as a single class on all other matters submitted to a vote of the shareholders, except as required by law. In connection with a Business Combination, the Company may enter into a shareholders agreement or other arrangements with the shareholders of the target or other investors to provide for voting or other governance arrangements that differ from those in effect upon completion of the Initial Public Offering.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of a Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 25% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of a Business Combination, excluding Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller of an interest in the target to the Company in a Business Combination and any Private Placement Warrants issued to the Sponsor, its affiliates or any member of the Company’s management team upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

NOTE 8. WARRANT LIABILITY

Warrants— As of March 31, 2022 and December 31, 2021, there are 7,666,667 outstanding Public Warrants. Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable 30 days after the completion of a Business Combination. The Public Warrants will expire five years from the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC a post-effective amendment to the Registration Statement or a new registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days following the closing of a Business Combination and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the expiration or redemption of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th business day after the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. In addition, if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of the Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company elects to do so, the Company will not be required to file or maintain in effect a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants and, in the event the Company does not so elect, the Company will use its commercially reasonable efforts to register or qualify the Class A ordinary shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) for any 20 trading days within a 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption; provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined based on the redemption date and the fair market value of the Class A ordinary shares;
- if, and only if, the closing price of the Class A ordinary shares equal or exceeds \$10.00 per public share (as adjusted) for any 20 trading days within a 30-trading day period ending three trading days before the Company sends the notice of redemption of the warrant holders.

If the Company calls the Public Warrants for redemption, as described above, its management will have the option to require any holder that wishes to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of ordinary shares issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or holders of the Class B ordinary shares or their respective affiliates, without taking into account any Founder Shares held by the Sponsor, holders of the Class B ordinary shares or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume-weighted average trading price of its Class A ordinary shares during the 20 trading day period starting on the trading day after the day on which the Company consummates its Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 80% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

As of March 31, 2022 and December 31, 2021, there are 9,666,667 outstanding Private Placement Warrants. The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, except as described above, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

NOTE 9. FAIR VALUE MEASUREMENTS

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

SOAR TECHNOLOGY ACQUISITION CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
MARCH 31, 2022
(Unaudited)

The following table presents information about the Company's assets that are measured at fair value on a recurring basis at March 31, 2022 and December 31, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

<u>Description</u>	<u>Level</u>	<u>March 31, 2022</u>	<u>December 31, 2021</u>
Assets:			
Investments held in Trust Account	1	\$ 237,055,861	\$ 236,903,949
Liabilities:			
Warrant Liability – Public Warrants	1	2,683,333	4,370,000
Warrant Liability – Private Placement Warrants	3	3,673,333	5,819,334

The Warrants were accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities in the accompanying balance sheets. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within the statements of operations.

The quoted market price was used as the fair value as of each relevant date for valuing the Public Warrants. The Private Placement Warrants were valued using a Black Scholes Option Pricing Model, which is considered to be a Level 3 fair value measurement. The Black Scholes model's primary unobservable input utilized in determining the fair value of the Private Placement Warrants is the expected volatility that is derived from a combination of the Company's implied volatility of its Public Warrants and from observable public warrant pricing on comparable 'blank-check' companies without an identified target.

The following table provides quantitative information regarding Level 3 fair value measurements:

	<u>March 31, 2022</u>	<u>December 31, 2021</u>
Stock price	\$ 10.13	\$ 10.11
Exercise price	\$ 11.50	\$ 11.50
Expected term (in years)	5.46	5.71
Volatility	5.6%	8.6%
Risk-free rate	2.39%	1.32%
Dividend yield	0.0%	0.0%

The following table presents the changes in the fair value of Level 3 warrant liabilities:

	<u>Private Placement</u>	<u>Public</u>	<u>Warrant Liabilities</u>
Fair value as of December 31, 2021	\$ 5,819,334	\$ —	\$ 5,819,334
Change in valuation inputs or other assumptions	(2,146,001)	—	(2,146,001)
Fair value as of March 31, 2022	\$ 3,673,333	\$ —	\$ 3,673,333

Transfers to/from Levels 1, 2 and 3 are recognized at the end of the reporting period in which a change in valuation technique or methodology occurs. No transfers occurred during the three months ended March 31, 2022.

NOTE 10. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

References in this report (the "Quarterly Report") to "we," "us," "our" or the "Company" refer to SOAR Technology Acquisition Corp. References to our "management" or our "management team" refer to our officers and directors, and references to the "Sponsor" refer to SOAR Technology Sponsor, LP. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Form 10-Q including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the completion of the proposed Business Combination, the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements, including that the conditions of the proposed Business Combination are not satisfied. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's Annual Report on Form 10-K filed with the SEC on March 25, 2022. The Company's securities filings can be accessed on the EDGAR section of the SEC's website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

We are a blank check company incorporated in the Cayman Islands on January 29, 2021 formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities. We intend to effectuate our Business Combination using cash derived from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, our shares, debt or a combination of cash, shares and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from January 29, 2021 (inception) through March 31, 2022 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination. We expect to generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended March 31, 2022, we had a net income of \$3,622,215, which consists of the change in fair value of warrant liabilities of \$3,832,668, interest earned on marketable securities held in the Trust Account of \$115,628 and unrealized gain on marketable securities held in the Trust Account of \$36,284, offset by formation and operational costs of \$362,365.

For the period from January 29, 2021 (inception) through March 31, 2021, we had a net loss of \$5,022, which consists of formation and operational costs.

Liquidity and Capital Resources

On September 20, 2021, we consummated the Initial Public Offering of 23,000,000 Units, which includes the full exercise by the underwriters of their over-allotment option in the amount of 3,000,000 Units at \$10.00 per Unit, generating gross proceeds of \$230,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 9,666,667 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant in a private placement to the Sponsor, generating gross proceeds of \$14,500,000.

Following the Initial Public Offering, the full exercise of the over-allotment option, and the sale of the Private Placement Warrants, a total of \$236,900,000 was placed in the Trust Account. We incurred \$13,412,940 in Initial Public Offering related costs, including \$4,600,000 of underwriting fees, \$8,050,000 of deferred underwriting fees and \$762,940 of other costs.

For the three months ended March 31, 2022, cash used in operating activities was \$32,434. Net income of \$3,622,215 was affected by the change in fair value of warrant liabilities of \$3,832,668, interest earned on marketable securities held in the Trust Account of \$115,628 and unrealized gain on marketable securities held in the Trust Account of \$36,284. Changes in operating assets and liabilities provided \$329,931 of cash for operating activities.

For the period from January 29, 2021 (inception) through March 31, 2021, we do not have cash used in operating activities.

As of March 31, 2022, we had marketable securities held in the Trust Account of \$237,055,861 in U.S. Treasury securities. We may withdraw interest from the Trust Account to pay taxes, if any. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less income taxes payable), to complete our Business Combination. To the extent that our share capital or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of March 31, 2022, we had cash of \$1,454,538. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor, or certain of our officers and directors or their affiliates may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant, at the option of the lender. The warrants would be identical to the Private Placement Warrants.

We have 15 months from the closing of the Initial Public Offering to complete a Business Combination (or up to 21 months if it extends the period of time to consummate a Business Combination in accordance with the terms described below). If we anticipate that we may not be able to consummate a Business Combination within 15 months, we may, but are not obligated to, extend the period of time to consummate a Business Combination two times by an additional three months each time (for a total of up to 21 months to complete a Business Combination); provided that the Sponsor (or its designees) must deposit into the trust account funds equal to an aggregate of \$2,300,000 or \$0.10 per Public Share, on or prior to the date of the applicable deadline for each of the available three month extensions, providing a total possible business combination period of 21 months at a total payment value of \$4,600,000, in exchange for a non-interest bearing, unsecured promissory note (an "Extension Loan"). Any such Extension Loan may be converted into Private Placement Warrants, at a price of \$1.50 per warrant at the option of the lender.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon completion of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination.

Going Concern

We have until December 20, 2022 to consummate a Business Combination (or up to June 20, 2023, if applicable). It is uncertain that we will be able to consummate a Business Combination by this time. If a Business Combination is not consummated by this date, there will be a mandatory liquidation and subsequent dissolution. Management has determined that the mandatory liquidation, should a Business Combination not occur, and potential subsequent dissolution raises substantial doubt about our ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should we be required to liquidate after December 20, 2022.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of March 31, 2022. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$8,050,000 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

Accounting policies, methods and estimates are an integral part of the financial statements prepared by management and are based upon management's current judgments. These judgments are normally based on knowledge and experience regarding past and current events and assumptions about future events. Certain accounting policies, methods and estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ from management's current judgments. While there are a number of accounting policies, methods and estimates that affect our financial statements, the areas that are particularly significant include use of estimates; Class A ordinary shares subject to possible redemption; net income (loss) per ordinary share; and the fair value of assets and liabilities.

Our significant accounting policies are summarized in Note 2 to our financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Following the consummation of our Initial Public Offering, the net proceeds of our Initial Public Offering, including amounts in the Trust Account, have been invested in U.S. government treasury bills, notes or bonds with a maturity of 185 days or less or in certain money market funds that invest solely in US treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, is recorded, processed, summarized, and reported within the time period specified in the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our "Certifying Officers"), the effectiveness of our disclosure controls and procedures as of March 31, 2022, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of March 31, 2022, our disclosure controls and procedures were effective.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

Factors that could cause our actual results to differ materially from those in this Quarterly Report include the risk factors described in the Company's Annual Report on Form 10-K filed with the SEC on March 25, 2022. Any of these risk factors could result in a significant or material adverse effect on the Company's business, financial condition and/or results of operations. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in the Company's Annual Report on Form 10-K filed with the SEC on March 25, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 20, 2021, we consummated the Initial Public Offering of 23,000,000 Units. The Units were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$230,000,000. J.P. Morgan, RBC Capital Markets and BTIG acted as joint book-running managers of the Initial Public Offering. The offer and sale of the securities in the Initial Public Offering were registered under the Securities Act pursuant to the Registration Statement. The Securities and Exchange Commission declared the Registration Statement effective on September 15, 2021.

Simultaneous with the consummation of the Initial Public Offering, the Sponsor consummated the private placement of an aggregate of 9,666,667 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant, generating total proceeds of \$14,500,000. Each Unit consists of one Class A ordinary share and one-third of one redeemable

warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per whole share. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

The Private Placement Warrants are identical to the warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants are not transferable, assignable or salable until after the completion of a Business Combination, subject to certain limited exceptions.

Of the gross proceeds received from the Initial Public Offering, the exercise of the over-allotment option and the Private Placement Warrants, an aggregate of \$236,900,000 was placed in the Trust Account.

We paid a total of \$4,600,000 in underwriting discounts and commissions and \$762,940 for other costs and expenses related to the Initial Public Offering.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Form 10-Q.

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

None

Item 5. Other Information

None

Item 6. Exhibits

The following exhibits are filed as part of, or incorporated by reference into, this Quarterly Report on Form 10-Q.

No.	Description of Exhibit
31.1*	Certification of Principal Executive Officer Pursuant to Securities Exchange Act Rules 13a-14(a), as adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Joe Poulin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of SOAR Technology Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
